<b>Investment Objective</b>	The investment objective of the scheme is to generate returns, before expenses, that are commensurate with the performance of the Nifty Financial Services Total Return Index, subject to tracking error. The Scheme does not guarantee or assure any returns.																
<b>Asset Allocation Pattern of the scheme</b>	<p>Under normal circumstances, the asset allocation will be as follows:</p> <table border="1"> <thead> <tr> <th rowspan="2">Types of Instruments</th><th colspan="2">Indicative allocation (% of total assets)</th><th rowspan="2">Risk Profile</th></tr> <tr> <th></th><th></th></tr> </thead> <tbody> <tr> <td>Securities included in the Nifty Financial Services Index</td><td>95%</td><td>100%</td><td>High</td></tr> <tr> <td>Money market instruments / debt securities, Instruments and/or units of debt/liquid schemes of domestic Mutual Funds.</td><td>0</td><td>5%</td><td>Low to Medium</td></tr> </tbody> </table> <p>The Asset Allocation portion shall also include subscription and redemption cash flow which may be undeployed due to various reasons (dividend from underlying securities, rebalancing or balances for running cost of the scheme, residual amount due to execution on rounding off etc).</p> <p>Subject to the SEBI Regulations as applicable from time to time, the Scheme may participate in securities lending.</p> <p>The scheme may engage in Securities Lending. The exposure to derivatives will be rebalanced to align with the underlying index changes in weights or constituents. Index futures/options are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. It can help in reducing the Tracking Error in the Scheme. Index futures/options may avoid the need for trading in individual components of the index, which may not be possible at times, keeping in</p>			Types of Instruments	Indicative allocation (% of total assets)		Risk Profile			Securities included in the Nifty Financial Services Index	95%	100%	High	Money market instruments / debt securities, Instruments and/or units of debt/liquid schemes of domestic Mutual Funds.	0	5%	Low to Medium

Index futures/options can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares comprising the underlying index and will be easy to settle compared to physical portfolio of shares representing the underlying index. In case of investments in index futures/options, the risk/reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future/option. The Scheme will not maintain any leveraged or trading positions. Exposure to such derivatives will be restricted to 20% of net assets of the scheme</p> <p>The Scheme will not invest in ADR/ GDR / Foreign Securities / Securitized Debt/ structured obligation/ Repo in Corporate Debt Securities nor will it engage in short selling. The scheme does not intend to invest into any credit default swaps. The scheme shall not invest in instruments having Special Features as defined in SEBI Circular no. SEBI/HO/IMD/DF4/CIR/P/2021/032 dated March 10, 2021. However, the cumulative gross exposure to equity, derivatives, debt instruments and money market instruments will not exceed 100% of the net assets of the scheme.</p> <p>Debt securities include, but are not limited to, Debt securities of the Government of India, State and Local Governments, Government Agencies, Statutory Bodies, Public Sector Undertakings, Public Sector Banks or Private Sector Banks or any other Banks, Financial Institutions, Development Financial Institutions, and Corporate Entities, collateralized debt securities or any other instruments as may be prevailing and permissible under the Regulations from time to time).</p> <p>The Debt Securities (including money market instruments) referred to above could be fixed rate or floating rate, listed, unlisted, privately placed, unrated among others, as permitted by regulation.</p> <p>Pending deployment of funds of a Scheme in securities in terms of investment objectives of the Scheme a mutual fund can invest the funds of the Scheme in short term deposits of scheduled commercial banks in terms of SEBI circular dated April 16, 2007, June 23, 2008 and August 16, 2019 and September 20, 2019.</p> <p>Further, the Scheme may, the scheme may for meeting liquidity requirements invest in units of money market/liquid schemes of Mirae Asset Mutual Fund and/or any other mutual fund provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund. <b>Investment Strategy</b>	<p>The Mirae Asset Nifty Financial Services ETF will be managed passively with investments in stocks in the same proportion as in the Nifty Financial Services Index.</p> <p>The investment strategy of the Scheme will be to invest in a basket of securities forming part of Nifty Financial Services Index in similar weight proportion.</p>

	<p>The investment strategy would revolve around reducing the tracking error to the least possible through regular rebalancing of the portfolio, considering the change in weights of stocks in the Index as well as the incremental collections/redemptions in the Scheme.
