THE INVESTMENT FRAMEWORK

Invest predominantly in completely hedged arbitrage opportunities (simultaneous transactions of a long position in cash and exactly short position in futures).	A small portion will be invested in other arbitrage opportunities (corporate action driven, event driven).
Aims to provide relatively risk-free returns without taking any directional equity risk.	If arbitrage opportunities are limited, the scheme may invest a small portion in high quality low duration debt securities or money market instruments.
The margin money requirement for the purposes of derivative exposure will be held in the form of Term Deposits, Cash or Cash equivalents.
